## DETAILED ACTION

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 is indefinite because mere "contacting" of the exhaust gas with the sorbent is not sufficient for "causing the mercury to react with the sorbent material to produce mercury-laden sorbent material", as conditions which allow such reaction to occur must be specified. Claim 16 is indefinite because there is no direct antecedent basis for the recitation of "said regeneration step", as claim 15 previously used "step of regenerating". Claim 19 is indefinite because it recites "two parallel honeycomb element units" without any correlation to "a honeycomb element system" previously recited in claim 17. Claims 2-15,17,18 and 20 are indefinite because they depend from the above indefinite claims.

3. Claims 1-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. The references listed on both the PTO-1449 and the PTO-892 show art of interest only, over which the claims define allowable subject matter.

5. Applicant's response to this Office action should also include the following editorial change: page 2, line 1, "of" should be inserted after "disposing".

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert H. Spitzer whose telephone number is (571)
